

Bumblebee room

We are going to be reading the book 'Dear Zoo' in the book corner developing listening skills and encouraging the children to sit for longer periods of time.

On the small world table we will have the zoo animals out so the children can re-enact the story and make lots of the animal sounds.

Art activities will be based on the book, making animal masks, painting zoo animals and lots more.

The water area is turning into winter wonderland with lots of ice being added, and polar bears, penguins for the children to play with. Learning about cold weather and places.

Malleable will have lots of winter themed materials in for the children to play in, like snow (sugar or flour) making car tracks in it or animal footprints.
